Ireland's Great Hobby Is to Have Nationality.

IS ONLY A SIDE ISSUE.

United States, he says, does not understand the underlying cause of the situation. He thinks Ireland's case is not a bettered very much, but not on national lines.

MR. A. J. BALFOUR.

Mr. A. J. Balfour, in the house of commons, during a debate on the subject, said he did not believe would cure the conditions of the Irish people on the subject of the house, he added, that the United States on political questions and had represented the United States that all the world should be a constituent part of the United States of America, and in which Ireland should be included as it was the state of New York, the British empire, and there was no doubt that the United States was not the only fact that the Americans had a free constitution and English had another. It is asserted, however, by the fact that the United States is not a nation, and would have been founded on the question of nationality.

However, the speaker added, that the United States had broken the nations states, like Austria, each of them, and different nations, and the state system of America had been adopted to meet them—it is as difficult to hold the United States of America as one great organization may be hereafter to hold the nations forming the Austrian empire. The only cure for this antipathy is the knowledge of the United States of America to do so.

FIFTY-FOURTH CONGRESS.

In the Senate.

WASHINGTON, Feb. 14.—The friends of the tariff bill met at a meeting held at the residence of Mr. Morrill, chairman of the committee, to take up the tariff bill. The negative vote which defeated the motion was given by Democrats, Populists and four Republican senators, viz: Teller, Mantel, Ingalls and Carter. The affirmative vote was entirely Republican, but its total of 41 is less than half of the aggregate Republican strength.

The result of the vote left the Cuban resolution as unfinished business, although this has yielded comparatively to the military academy and other appropriation bills.

The urgent defense bill was passed. It carries about \$3,000,000, a considerable increase over the bill passed in the house.

A resolution was adopted directing the Pacific railroad committee to make full inquiry into the status of the Pacific railroads. Mr. Pittenger made a savage speech against the "hushwaymen and conspirators" connected with the Pacific railroads and urged the force of government action.

The adjournment of the senate was until Monday.

In the House.

WASHINGTON, Feb. 14.—After a 10 days' delay the house by a vote of 80 to 60 passed the bill which would give the senate free coinage, amendment to the land bill and reported the bill to the house with a recommendation to nonconcur and insert on the house bill.

Propositions were offered during the day to amend the amendments as follows: To vote on the American silver product for the retention of the coinage by the government and to open the mints to the free coinage of silver at the rate of 16 to 1 when Germany and France should have agreed upon similar action. All were defeated by large majorities.

The most significant statement came in the form of an intimation from Mr. Dingley that a bill might be reported from the ways and means committee looking to the initiation of a currency of paper for smaller denominations, national monetary conference to meet within a year. While Mr. Dingley said he was simply expressing his personal opinion in the matter, it was generally understood from the manner in which he said it that the suggestion had already matured into a well defined intention on the part of the Republican leaders of the house.

Walling and Jackson Are Held as Fugitives in Ohio.

NEWPORT SHERIFF TO GET THEM.

Each Is Congratulating Himself That the Other Will Be Lynched If an Assault Is Made on the Jail—The Hat Found at Port Thomas Identified at the Home of Pearl Bryan.

CINCINNATI, Feb. 14.—The mysterious murder of Pearl Bryan has several more clues. An umbrella handle was found near the scene of the murder and a handkerchief found in Walling's trunk. There is a reward of \$500 for two morning papers, \$50 by the owner of the farm on which the murder was committed, for the discovery of Pearl Bryan's head, with the prospect of \$500 more from citizens of Greencastle, Ind., making \$1,000. This, with the intense interest in the solving of the mystery, stimulates the search by everybody. The water is being drained out of the canal, and the search will begin in its slush bed.

The charge against Walling and Jackson was changed here from murder to "fugitives from justice," for the abandonment of jurisdiction by Ohio and facilitating their extradition to Kentucky. The prisoners will contest extradition.

The authorities and people of Newport feel aggrieved that there should be fear of the prisoners being lynched there. The sheriff says he can take care of the prisoners and that if he finds danger of a lynch mob, he will take them out of the county and put them in the New York jail not strong enough to withstand it he can easily remove them.

Jackson has received a touching letter from Mrs. Murre J. Post, his sister. It implores him to tell his lawyer the whole truth. "Tell it to him at once, my brother, and bravely abide the consequences."

The incarceration of William Wood for complicity in the abortion and in procuring poison surprised the young man. He was averse to going on his bond again. His counsel, David Davis, said it was better for him to be in jail. Counsel did not attempt to get him out of jail. Wood is very indignant.

The missing links still remain as follows: The Indian head, the whereabouts of Pearl Bryan Jan. 29 and 30, the note the identity of the cabin man who took the parties to the bloody ground.

Jackson, in an interview in jail, said he was perfectly willing to go to Newport, and in case he was lynched Walling would be also, and there would be the satisfaction that the guilty life went out with the innocent one. Walling said subsequently the same thing, promising that Jackson's would be the guilty life.

It Was Pearl's Hat.

GREENCASTLE, Ind., Feb. 14.—The hat sent here from Cincinnati, found by detectives near Newport, Ky., has been identified by the family and relatives as Pearl Bryan's, and as the one she wore when last seen at home.

HE IS A NICE DUCK.

Mannix Was Working Both Ends Against the Middle In Cuba.

WASHINGTON, Feb. 14.—Although William F. Mannix, the newspaper correspondent who is about to be expelled from Cuba by the Spanish officials, has lodged a protest with the state department through United States Consul General Williams, this will not command sympathy in his case, in view of the record of the proceedings of Mannix, which is now in the possession of the state department.

This record is in his own handwriting in the shape of letters addressed by him to certain officials, and shows clearly that he proposed to the Spanish authorities to act as a spy upon the Cuban insurgents, and that he offered to betray to them a Cuban officer with whom he slept.

He also proposed to cultivate a feeling of friendship towards the Spanish cause in the United States through the medium of letters to the many newspapers in the United States, including the most important publications in this country, and all of this for a consideration.

In one case Mannix offered, if he were appointed an officer in the Spanish army, to come out in a public declaration to the effect that he, an influential member of the Cuban party, had left the Cuban cause in disgust with their actions.

His letters also abound with appeals to the standards for money, and it is in evidence that he was negotiating with both sides in Cuba.

On the whole the officials here consider that Mannix will be lucky to get away from Cuba on the terms offered by the Spanish officials.

TRINIDAD ISLAND DISPUTE.

The Land Pirates Explain Why They Are Writing to Arbitrate.

LONDON, Feb. 14.—In the house of commons Mr. George N. Curzon, under secretary for the foreign office, replying to a question as to why Great Britain had proposed to Brazil, that the dispute regarding the possession of the island of Trinidad be settled by arbitration, said Great Britain occupied Trinidad in 1781 and abandoned it in 1782 on the representation of Portugal. The late government, Mr. Curzon added, reoccupied the island because it had been abandoned for a century. The government proposed arbitration as the best means of settling the question of the ownership of the island.

"Bat" Snuck Behind.

TROY, N. Y., Feb. 14.—"Bat" Shea, who was electrocuted at Dannemora prison for the murder of a man named Ross, was brought here and buried here. Father Swift said high mass for the dead and pointed to Shea's ignominious death as a sad example for young men inclined to forget their early lessons.

Civil Service Is Proposed For City Employees.

ANY OHIO CITIZEN MAY GET A JOB.

He Need Not Be a Resident of the City. Senator Herron Is the Father of the Bill, and He Provides a Penalty For Exacting Campaign Assessments From Employees.

COLUMBUS, O., Feb. 14.—Senator Herron thinks certain employees of cities ought to be perpetual, and has introduced a bill providing for civil service in cities of the first and second class. Under this bill any citizen of Ohio may come into a city and get a position. He need not be a resident of the city. The bill also provides a penalty for exacting campaign assessments.

President C. C. Watts of the board of trustees of the state epileptic hospital at Gallipolis appeared before the house committee on finance and presented the needs of that institution for funds. He asked for an appropriation of \$50,000 for the coming year, of which \$25,000 will be used for new buildings if secured.

HE GOT A DRINK.

After a Search in Three States the Thirsty Man Was Treated.

A natural expert from this city was called into north Georgia to report upon a supposed gold find. He had got wet through and through, and when sent before a roasting fire in the old fashioned fireplace he asked his host, "Is it possible to get anything warm to drink?"

"I dunno of any being made in this part of Georgia," said some over on Sand mounting, 10 miles from here.

The expert thought rightly that the man was afraid he was an informer and succeeded in convincing him to the contrary.

"Waal, mister," said the host, "I told you the truth. I don't know of none in this part of Georgia. I'll send my boy to Tennessee after some. Sam (to the boy), go to Tennessee and get some hickory."

The boy soon returned.

"That ain't none there, pup."

"Go to Alabama, then." In about ten minutes the boy returned with a pitcher filled with brandy.

Upon investigation it was learned that the house was in the corner of three states, with a separate collar in each.—Philadelphia Times.

The understanding in Ohio is that
 Major McKinley will not receive his
 valentine until along in June.

There is some comfort in the thought
 that Anneke Jans did not live long
 enough to discover the gullibility of
 her numerous heirs.

Jackson and Walling, the accused
 murderers of Pearl Bryan, will go over
 the river—the Ohio not the Sky, though
 possibly it means the same thing.

Gen. Weyler tells the American news-
 paper correspondents in Cuba that he
 will help them get the news. But if
 Weyler don't quit talking there will be
 no news.

Kenton News makes double-headed
 announcement that the city will have
 a suite of bath rooms. Evidently ex-
 pects the item to create some excite-
 ment in the town.

The big fight that was to have taken
 place at El Paso today has been post-
 poned because one of the principals has
 sand in his eyes. Sometimes a lack of
 sand has the same effect.

The Catholic ray should be brought
 to bear on the Quay presidential can-
 didacy. Something is needed to re-
 volve the innermost workings of the
 boss Pennsylvania's boom.

The Toledo ripper is dead, and its
 fate will be a lesson to politicians who
 will want, in the future, special legisla-
 tion in their own behalf or to accom-
 modate any scheme they may have in
 mind.

Gen. Harrison is said to have shut
 himself up in the house for three days
 before he wrote his letter of withdrawal.
 But that doesn't compare with the
 length of time he kept the other candi-
 dates in the dark as to his intentions.

Before the friends of Senator Cullom
 can hope to build up much of a boom
 for him on the strength of his re-
 semblance to the immortal Lincoln, an
 anxious public will want to know that
 the resemblance does not end with the
 general appearance.

It will be noted that the local dem-
 ocracy has arranged that the expenses
 of the primary system are to be paid by
 the candidates. No man can get on the
 ticket until he has plunked down his
 share of the estimated cost of holding
 the election. The man who doesn't
 ante will not be in the deal.

It must be urged in support of the
 argument favoring the substitution of
 electrocution for hanging that the
 electric chair does away with much
 sensationalism that always accom-
 panies the infliction of the death pen-
 ity by strangulation. As a quiet, un-
 eventful method of disposing of mur-
 derers, electrocution is far in advance
 of the old way.

The McKinley boom suffered recent
 embarrassment on account of the McKin-
 ley speech at the Lincoln day banquet
 of the Marquette club at Chicago. The
 speaker escaped the criticism that
 might come to so prominent a candi-
 date for a presidential nomination even
 from those who do not regard his can-
 didacy with favor, while his avowed
 friends were delighted with his most
 admirable address.

The telegraph today tells an inter-
 esting story of the north pole by Dr.
 Fridtjof Nansen, the Norwegian ex-
 plorer. While the report comes sec-
 ond-hand from Dr. Nansen and is
 naturally regarded with no little
 amount of skepticism, its truth is not
 regarded as wholly improbable. If this
 brave Norwegian has really discovered
 the geographical center and penetra-
 tion something over which travel
 much. Whether the report is true
 or not there is no doubt of its having
 awakened feverish interest among the

scientists of the world which will not
 abate until more is known in regard to
 Dr. Nansen's success or failure.

It seems to be the understanding
 that a resolution of censure will be
 adopted in the case of Representative
 Spear. What will such action mean?
 Certainly not that Mr. Spear is in-
 nocent of the charges against him and
 if he is guilty the punishment would
 not be adequate. Perhaps, however,
 Rep. Spear's explanation that he was
 only joking when offering to sell a
 guardship has been accepted by the
 committee as true and they may de-
 cline to censure him for being so funny.

RAILROAD MEN.

Are More Cheerful Since the Visit of Mr.
 Merrill of Erie.

W. C. Merrill, the second vice presi-
 dent of the Erie, whose visit here the
 society made mention Thursday, made
 some very interesting statements here,
 and while he did not commit himself,
 he was well pleased with Marion.

While with George W. Ball, the
 round house foreman, he inquired in
 regard to the ownership of the land in
 that section of the yards, and asked
 that the outline of the company's prop-
 erty be shown him. He did not know
 the company had so much room in this
 city, and was well pleased with the
 manner in which it was laid out.

The railroad men feel more confident
 for Marion since Mr. Merrill visited
 Marion, and think that his being pleased
 with Marion with the large yards
 and their capacity of more than pas-
 sing significance to this city.

RAILROAD NOTES.

Fred Tristram, of the Wabash pas-
 senger department, was in the city
 today.

E. P. Wynn, traveling passenger agent
 of the Burlington route, was in the city
 Thursday.

Express messengers Fred Bean and
 Will Springer will commence running
 from Chicago to Salamanca, Tuesday.

John Ted, receiver of the Nypapano
 has been allowed another \$5000 com-
 pensation by Judge Voris of Akron.
 This makes \$10,000 he has received so far.

C. A. Allen, superintendent of the
 third and fourth divisions of the Erie,
 is confined at his home at Galion,
 threatened with an attack of pneumo-
 nia.

There were 1522 miles of railroad
 built in the United States in 1853. In
 1887 there were 12,931 miles built. That
 is the difference between a good year
 and a bad year. It amounts to 11,409
 miles. Counting average construction
 at \$20,000 a mile it would be \$228,180,000
 more paid out, and chiefly for labor
 in 1887 than in 1853, and this \$228,180,000
 would mean a dollar and a half a
 day, Sundays included, for a year for
 109,513 men.

Revised the Premium List.

The board of directors of the Marion
 County Agricultural society met in the
 society room at the court house Thurs-
 day afternoon to revise the premium
 list.

The list was gone over from begin-
 ning to end and some radical changes
 made in it.

The board at the meeting also em-
 ployed a competent man to go over the
 books of the society back as far as 1885
 to show the people of Marion county
 that the present officers are in no way
 responsible for the indebtedness under
 which the society is laboring and that
 it was handed over to them by the old
 officers.

 from Detective Little of the Erie, at a
 late hour last night, stating he had
 "snaps" Jones confined in the Lebanon
 jail. Marshall Wood left on train 3 for
 Lebanon and will return to lay on train
 with the sleek burglar, who is charged
 with being implicated in the Rich-
 mond robbery at this place. He will be
 detained as a witness in the trial of
 Chas. Lieurance, at Bellefontaine, and
 may be tried for burglary in the court
 of common pleas of Union county.

Itchwood Gazette.

Attorney Euston G. Young and Sam-
 uel Mahaffey of Marion, were in Rich-
 mond Monday and filed papers for a
 suit or replevin to obtain possession of
 the hay press now held by C. E. Kunkel,
 to secure a claim of almost \$1000 against
 E. L. Hawkins, the hay and coal dealer
 of Marion. Mahaffey claims he has had
 a mortgage on the press for some time.
 The case will be tried before Esq. Hall
 Friday morning.

THE COLUMBIAS WIN.

THURSDAY NIGHT.

The Columbia Team Gets Three Games
 Out of Four and the Local Champions-
 ship—The Score Thursday Night Fought
 Ten to Six.

It is a well known fact that the Colum-
 bia team is the number one of the hardest
 to defeat in the state. They have pulled
 out all the stops in their recent games
 and have done little else the past few
 days but discuss polo the merits of
 the two teams and the ability of the
 various players.

It was a hot and sticky Thursday night
 when Manager Chambers, of the Colum-
 bia team, called the team to order and
 the fourth game of the series, and the
 players took their places on the
 field. After a half preliminary dis-
 cussion between Tom Clary, back of
 the Columbia team, and in exactly one minute
 after that Clary had the little red ball
 in his hands, making the first score
 for the Columbia team. In the next
 one minute and five seconds, Trago
 Allen had played the ball where it was
 most wanted by the Columbia team,
 and the second goal was the Colum-
 bias'.

The next goal was a hard fought one.
 Referee Clary had to caution the play-
 ers in regard to chummy playing and the
 ball did not see the cage until it had
 been hustled over the rink for five
 minutes, and then Lutz, who had been
 given the title of slippy, drove it
 clear across the door and past Allen's
 pole-hat legs.

The People's team began to pick up.
 Young Byers, who played in Clary's
 place, is a winner and a fast polo player.
 His stops were almost phenomenal.
 Clary played a good game, but he could
 not get himself together, and Allen was
 not as effective in stopping the ball as
 he had been, giving the team their
 share of hard luck, and while they
 fought for the fourth goal for four
 little times they lost it at the end of
 two minutes by Clary's goal drive.

The next goal was also won by the Colum-
 bia team in a few seconds by a drive by
 Allen. Another five minutes' goal was
 fought, young Byers playing the Colum-
 bia team all over the rink, but the
 ball got in among the Philistines down
 in front of the People's goal, and Clary
 and Lutz managed to get it home. This
 gave the Columbia six scores, and
 never one was marked up for the
 People's.

The seventh goal commenced fast
 and furious. The Columbia wanted to
 fix up a bucket of white wash for their
 opponents but failed to do so, and when
 five seconds had passed Clary got a drive
 at the red sphere and sent it home,
 after which time was called and the
 game stood six to one in favor of the
 Columbia.

During the rest Referee Clary ad-
 monished both Lutz and Clary, who
 were doing considerable foul playing,
 in regard to their actions. At one time
 Allen asked that Lutz be taken off the
 floor, but he did no more foul playing
 than Clary, and it was a horse apiece.

The People's team looked much rested
 when they went on for the second
 half, and right here is where young
 Byers got in his good work, and made
 some of the most brilliant stops ever
 made in the rink. The first goal in this
 half was won by the People's in one
 minute and thirty-five seconds by Clary.
 This sort the People's friends wild, but
 when after playing three minutes and
 fifteen seconds more they again got the
 ball past Thompson's legs, which had
 been in the way during the first half,
 they went crazy. Clary also drove it
 goal. It chanced and the next goal
 was made by Clary in a hard fight in
 one minute and thirty-two seconds.
 During this game time was called. The
 ball struck Lutz in the neck and he
 had to be taken outside until he re-
 covered from the faintness caused by it.

The next goal was short and sweet
 and won by the People's in 75 seconds
 in a mix-up, which gave Clary a chance
 at the ball, but the ball was knocked
 out of a window and a new one procured
 before he made the goal.

For the next minute and forty-nine
 seconds there was a scramble for su-
 premaccy, but the legs of Allen felt the
 ball as it whizzed into the cage of the
 People's by a hard drive from Clary's
 stick.

The next two goals were both hard
 fought ones. It took three minutes and
 forty-five seconds to play the two and
 both sides looked like beavers, but the
 People's won both by drives from Clary
 and the support of all the rest of the
 team. There was now a possible chance
 of the Columbia losing the money at
 the gate, and they started out with de-
 termination in their eyes, and in thirty
 seconds Allen caught the ball, and in
 just thirty-two seconds after that Clary
 did the same thing and the whistle
 sounded.

A Few Prices.

Harry Thomas was struck in the head
 by the ball and a deep gash cut. He
 was obliged to go to Dr. Crane and
 have a couple of stitches taken in it.
 The winners got nearly fifty dollars
 for their four goals playing.

There were not twenty-four people
 in the house than there were on
 Friday night.

Tom Clary had to cut him down on
 the permitted not of playing of
 Clary's.

Lead Lutz is a scoundrel Rulph-
 ers. He says a scoundrel now.
 He got the name of the slippy
 when he was getting the ball away
 from an opponent in a polo game.

Low Lutz's rink team is a right
 team and he is fairly, but are in
 players, get the same.

whispered words of applause.
 The Tally Wags feasted after the
 close of the game, and then repaired to
 their rooms where a season of song and
 story was enjoyed. As entertainers the
 Wags beat anything that ever came
 down the line.

While there was not a very large at-

A BOY'S DEATH.

The Fifteen-Year-old Son of James Williams Dies This Morning.

Fred H., the fifteen-year-old son of Mr. and Mrs. James Williams, died at their home, 415 South State street, this morning between 3 and 4 o'clock. Fred had been ill for the past three weeks. He was suffering from neuritis and some disease of the brain, which resulted in his death.

Mr. and Mrs. Williams are deeply grieved over his death, and in their bereavement they have the sympathy of many friends.

The funeral will occur Saturday forenoon at 10 o'clock from the house, Rev. J. L. Hillman officiating.

The war which now exists between the roasters of package coffee and the consequent cut in prices, has made it necessary for them also to cut the quality. The constant increased sales of our famous Joe Mocha and Java coffee is proof positive that people will drink good coffee. J. W. Thew.

Closing price on all our extra home-made blankets. SPENCER BROS.

YOUTHFUL THIEVES

A GANG APRESTED CHARGED WITH PETTY OFFENSES

They Stole Iron and Other Articles from the Fairbanks Quarries--One Boy Caught and He at Once Gives the Others Away.

The police have made arrests and discoveries that will very likely break up the petty thieving that has been going on in this city, and a well-organized gang of small boys who have been perpetrating crimes that were both annoying and expensive to their victims.

Thursday evening J. G. Fairbanks appeared before Acting Mayor McKinley and swore to an affidavit for a warrant, charging William Murray and John Butler, two young boys, of stealing iron. The iron was stolen from Mr. Fairbanks' quarry, and in fact everything that was found loose in that vicinity has been taken. At times chickens have been stolen, and these boys are supposed to have been guilty.

Murray was soon found and locked up by Marshal Blain, but the other boy could not be found. It was known that there were more than these two implicated and so Murray was held, and this morning Squire McKinley went to the prison and questioned him. He soon made a full confession of the thefts. Told the names of the other boys implicated, and just how they committed the thefts. He said that George and Isaac Fox stole two cartloads and sold them to a man named Miller, and that Dick Hubley assisted them. The boys did not sell the iron themselves, but got a young fellow named Messenger to dispose of it, and he was to have a portion of the money. After he made the sale the boys refused to divide.

In the meantime Murray and Butler took the cart and loaded it with iron and took it to Wesley Harsch, but did not sell it. When they reached there some one told them that the iron belonged to Mr. Fairbanks and they were very likely to get in trouble over the matter. They became frightened and took the iron back and threw it over the fence.

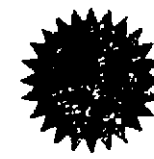

Immediately after Murray made this statement warrants were issued for the rest of the boys, and Messenger was soon in the prison, but the rest were not so easily found.

Dick Hubley was arrested this afternoon and the two Foxes will be arrested yet today, and are perhaps now in custody. It is thought that probably Butler has left the city.

That Fight.

We mean the one that our friend Blair failed to enjoy, cut no figure in our prices. We still sell the best of hams at 11 1/2¢ per lb., and oranges at 15¢ per doz. Court & Rice, 115 South Main street.

HUSBAND AND WIFE

Reach an Amicable Settlement and Then Separate.

Mr. and Mrs. Joseph LeFort, residents of Leader street, have agreed to disagree, having made a division in their property and parted.

LeFort was a foreman at the Marion Manufacturing works until two or three weeks ago, when he left the shop and since that time has not done much of anything. He and his wife had some trouble over the division or appropriation of some property, which Thursday resulted in a final quarrel and they separated.

LeFort, however, has been pretty liberal with his wife. She asked him if he would not see Mr. Cheney and have him come and buy her household furniture. The husband promised that he would do so and Thursday afternoon informed Mr. Cheney of what was wanted. Mr. Cheney went to the house and made the deal. Mrs. LeFort will leave here Saturday.

Both the husband and the wife allege that the other is to blame. Mr. LeFort has been drinking rather heavily of late, and this may have had something to do with the case. He was foreman of the erecting room at the Marion Manufacturing company works, and was a hard worker. He has been a resident of this city for several years.

LeFort had five hundred dollars in the bank, and here he made a nice settlement on his wife. He gave his wife three hundred dollars of the money and kept the balance. He is of French and German descent, and speaks very brokenly.
